Telmate™

TELMATE
TABLET

The Telmate Tablet is a secure, wireless device specifically designed for correctional facilities that transforms the way inmates spend their time and helps improve public safety.

The tablet allows inmates to communicate with their friends and family using the modern methods they're familiar with, including secured messaging, wall posts, photo sharing and video messages, all at no cost to the general public. But the tablet is more than a 21st century communication device. It offers inmates the opportunity for self-improvement and personal development and a chance to use their time for something constructive. And the controlled environment monitors inmate behavior further enhancing security and control.

The tablet's customizable platform offers inmate development and growth opportunities through a suite of services, including:

Continuing Education & GED Content

Drug & Alcohol Counseling

Spiritual Guidance

Language Training

Music & Entertainment

Job & Life Skills Training

Legal Research

News

Library of eBooks

Secure Web Browsing

Increasing connections between inmates and their support network reduces recidivism, helping inmates to both get out and stay out.

View cousin's graduation photos.

7:32pm
Listened to 5 Louis Armstrong tracks.

The Telmate Tablet: A "Day in the Life".

The Telmate Tablet instantly transforms an inmate's day from "wasted time" to "productive time." From spiritual content to communications with friends and family to self improvement opportunities like drug and alcohol counseling, the Telmate Tablet puts a world of opportunity into an inmate's hands.

Why Telmate?

The Industry's Best Service and Support

We offer the industry's best customer service with live US-based, bi-lingual 24/7 toll-free support, in-house repair technicians, 24 hour circuit monitoring and two hour, on-site response time.

Increase Usage and Operating Efficiencies

Our range of communications products, automated admin tasks and deposit options drive increased system usage and unsurpassed operating efficiencies.

Innovative Technology

Our system is the most robust, full featured, and secure inmate communications platform available featuring deposit and account management, phone, video visits, social media, investigation tools, mobile access and full integration with commissary and JMS systems.

Unified Software Platform

Telmate's fully integrated software and hardware eco-system has been designed and built by our engineers to meet the unique needs of the corrections industry.

Telmate is one of the fastest growing inmate communications systems in North America currently providing service to hundreds of correctional facilities in nearly every U.S. State and two Canadian Provinces. From city and county jails to federal facilities, Telmate serves populations of all sizes—many exceeding 1,000 beds.
