

TELMATE TABLET

INMATE BENEFITS

The Telmate Tablet is not only innovating inmate communications, but also having a profound effect on inmate well-being.

The Telmate Tablet is a secure, wireless device specifically designed for correctional facilities that transforms the way inmates spend their time and connect with the outside world.

The tablet allows inmates to communicate with their friends and family using the modern methods they're familiar with, including secured messaging and photo sharing, all at no cost to the general public. But the tablet is more than a 21st century communication device. It offers inmates the opportunity for self-improvement and personal development and a chance to use their time for something constructive.

The tablet's customizable platform offers inmate development and growth opportunities through a suite of services, including:

-  **Messaging & Photo Sharing**
-  **Commissary Ordering**
-  **Law Library**
-  **Electronic Requests & Grievances**
-  **Music & Entertainment**
-  **Crime Tips**
-  **Games**
-  **PREA**
-  **News**
-  **Continuing Education & GED**
-  **Library of eBooks**

The Telmate Tablet settles the corrections environment by helping inmates turn long stretches of idle, negative time into active, engaging, and constructive time. The result is a calmer, less anxious, and less aggressive inmate.

TELMATE TABLET INMATE BENEFITS

Building Responsibility and Reducing Risk

A lack of choice and responsibility is often a painful and aggravating aspect of incarceration contributing to anger and hostility. Telmate Tablets offer inmates small, safe areas of choice and responsibility, which promotes positive behavior, has a calming effect on inmate social dynamics, and reduces overall risk for staff.

Reducing Pressure and Stress

When a person is locked up minutes seem like hours. This expansion of time creates stress and a charged environment that can be hazardous for both inmates and staff. The Telmate Tablet allows for a series of daily interactions that settle the corrections environment by helping inmates turn long stretches of idle, negative time into active, engaging, and constructive time.

Why Telmate?

The Industry's Best Service and Support

We offer the industry's best customer service with live US-based, bi-lingual 24/7 toll-free support, in-house repair technicians, 24 hour circuit monitoring and two hour, on-site response time.

Increase Usage and Operating Efficiencies

Our range of communications products, automated admin tasks and deposit options drive increased system usage and unsurpassed operating efficiencies.

Innovative Technology

Our system is the most robust, full featured, and secure inmate communications platform available featuring deposit and account management, phone, video visits, social media, investigation tools, mobile access and full integration with commissary and JMS systems.

Unified Software Platform

Telmate's fully integrated software and hardware ecosystem has been designed and built by our engineers to meet the unique needs of the corrections industry.

Telmate is one of the fastest growing inmate communications systems in North America currently providing service to hundreds of correctional facilities in nearly every U.S. State and four Canadian Provinces. From city and county jails to federal facilities, Telmate serves populations of all sizes—many exceeding 1,000 beds.
