TELMATE
EDUCATIONAL CONTENT

## The best educational content, on the most robust and secure platform.

Telmate has partnered with IDS to provide industry leading educational content backed by years of correctional education research. The partnership brings together IDS, the innovator of digital education content for security sensitive environments, and Telmate the industry leader in secure inmate communications. The solution features a proprietary, customizable learning management system (LMS) and wide range of education offerings designed to help inmates grow while lowering recidivism. Now your education solution and all the other technology are on one device and one provider. The Telmate Tablet is an all-in-one solution; bringing facilities education solutions along with latest technologies like paperless inmate requests and grievances, commissary ordering, electronic facility information, secure messaging and entertainment.

The critical need for education in corrections:

Education Reduces Recidivism: Studies show a drop in recidivism of approximately 8% when inmates have access to education content.

Education Aids in Employment: Employment after release is about 13 percent higher among prisoners who participate in either academic or vocational education programs than those who did not.

Facility Budget Savings: Facilities save about 1 million dollars annually for every 30 inmates who do not return to incarceration.

Return on investment: Education programs are cost effective, with a $1 investment in education reducing incarceration costs by $4 to $5 during the first three years post-release.

Telmate and IDS have partnered to offer the most secure, yet flexible education solution in corrections.

IDS

Telmate's customizable platform offers inmates direct access to interactive educational content on our secure and portable corrections-grade devices.

Content Variety:

Religious - Inmates have access to a wide variety of religious content designed to offer self-guided spiritual support and improvement.

Entrepreneurship - Business focused content outlining the steps needed to start and grow a new business.

Substance Abuse - Content offered to educate and support those exploring or committing to drug and alcohol recovery.

High School Equivalence - GED programs offered to help inmates complete their high school education.

Conflict Resolution - Life skills content offered to help foster healthy professional and personal relationships.

Vocational - Job-specific technical training for trades, such as auto repair, plumbing and retail.

Instructor-Led - Learning between an instructor and inmates allowing for real-time feedback, questions and answers.
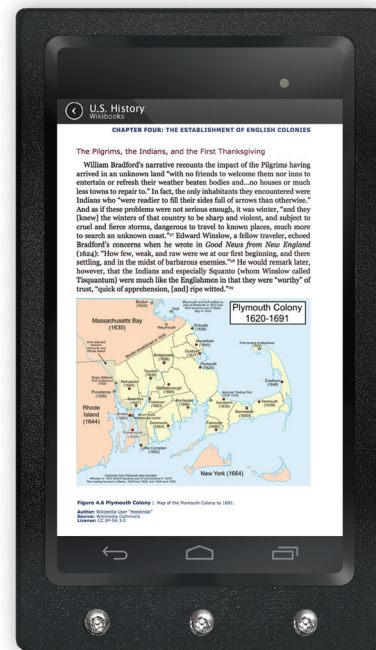

Post-Secondary - Post-secondary education is an optional level of schooling beyond what is required by law.

Adult Basic Education - Programs serve students who want to improve their basic skills in reading, writing, math, listening, and speaking.

ESL Program - English as a Second Language is an English language study program for non-native speakers.

IDS

IDS is run by Dr. Turner Nashe entrepreneur, inventor, innovator and recognized leader in building educational and entertaining content to security sensitive industries. Nashe is based in Nashville, TN where he received his doctorate in Educational Administration and Supervision from Tennessee State University.

Why Telmate?

The Industry's Best Service and Support

We offer the industry's best customer service with live US-based, bi-lingual 24/7 toll free support, in-house repair technicians, 24 hour circuit monitoring and two hour, onsite response time.

Increase Usage and Operating Efficiencies

Our range of inmate communications and community corrections monitoring products drive increased system usage, productivity and unsurpassed operating efficiencies.

Innovative Technology

Our Telmate system is the most modern, robust and secure platform available featuring a range of offender monitoring and inmate communication features that are designed to benefit both case managers and facility staff.

Unified Software Platform

Telmate's fully integrated software and hardware ecosystem is designed and built by our engineers to meet the unique needs of the corrections industry including community corrections.

Telmate is a leading provider of secure corrections and community corrections solutions including phone, tablet, visitation, messaging, education and entertainment content, corrections applications, investigator tools and GPS monitoring. Telmate's cutting-edge platforms are deployed in over 300 correctional facilities in the U.S. and Canada.
