

# Guardian Confirm Self-Reporting Made Easy

## MANAGING YOUR CASELOAD JUST GOT EASIER!

**Guardian Confirm** is a new self-reporting feature that is part of Telmate's Guardian offender monitoring platform. The smartphone-based questionnaire helps case managers save **TIME** and gain caseload monitoring **FLEXIBILITY**.

Low-risk offenders simply check in from their smartphone to answer routine questions about daily and life-changing events, instead of case managers making phone calls or visits to collect information.

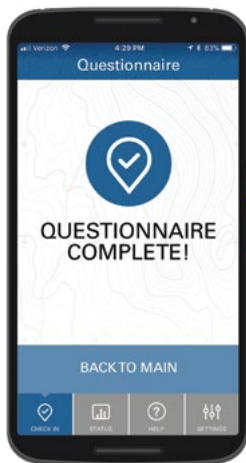

Use as  
standalone  
product **OR**  
as part of the  
**Guardian**  
solution.

## Sample Questions:

- “Has your home address changed since your last check-in?”
- “Have you had any contact with law enforcement?”
- “Are you still employed?”

## Guardian Confirm Benefits:

- Use as standalone product or as part of the Guardian solution
- Daily email confirming self-reporting compliance
- Get alerts for all questionnaire exceptions
- Customizable questions

## Why Telmate?

### The Industry's Best Service and Support

We offer the industry's most personal customer service. We are US-based, bi-lingual, 24/7 toll-free support by phone, onsite or virtual. We solve your issues supported by the best monitoring technology.

### Increased Usage and Operational Efficiencies

Our range of communications products, automated admin tasks, workflows and deposit options drive increased system usage and unsurpassed operational efficiencies.

### Innovative Technology

Our system is the most robust, full featured, and secure inmate communications platform available including phones, tablets, investigator tools, video visits, leveraging integrations with commissary and JMS systems.

### Unified Software Platform

Telmate's fully integrated software and hardware ecosystem has been designed and built by top tech talent to meet the unique needs of the corrections industry, unlike any other provider.

Telmate is a leading provider of secure corrections and community corrections solutions including inmate phone, tablet, visitation, messaging, education and entertainment content, corrections applications, investigator tools and GPS monitoring. Telmate's cutting-edge platforms are deployed in over 300 correctional facilities in the U.S. and Canada. Telmate is a wholly-owned subsidiary of GTL, headquartered in San Francisco, California.
